SUMMARY

Data Analyst with experience building and maintaining data pipelines, transforming data, and developing reporting solutions. Skilled in SQL, Python, Snowflake, and dbt, with a focus on data analysis, automation, and business reporting. Experienced in improving data quality and making information more accessible across an organization.

EDUCATION

Weber State University, Ogden, UT
- *B.S. Computer Science* | *Expected December 2026*

Salt Lake Community College, Taylorsville, UT
- *A.S. Computer Science* | *2024*

TECHNICAL SKILLS

- **Programming:** SQL, Python, JavaScript, C#, Java
- **Data & BI:** Snowflake, dbt, Domo, Excel, ETL/ELT, Data Modeling, Data Validation
- **Development & Automation:** Git, GitHub, Azure, REST APIs, Domo Pro Code Apps, Power Apps, Power Automate, SharePoint

WORK EXPERIENCE

Mountain Land Physical Therapy Partners, Cottonwood Heights, UT

Data Analyst | 2024 - Present
- Develop and maintain data pipelines, SQL-based dbt models, stored procedures, and scheduled tasks in Snowflake to integrate data from multiple sources.
- Build and maintain Domo dashboards, KPIs, and reporting datasets to track performance, analyze trends, and support business decisions across 9 support service departments and more than 80 clinics.
- Investigate data quality issues, troubleshoot pipeline failures, and reconcile reporting discrepancies across Snowflake, dbt, Domo, and source systems.
- Develop Python-based automation using Azure Functions and Power Automate, including clinical document processing that reduced preparation time from 15–20 minutes to 2–5 minutes per case.
- Develop and validate SQL-based financial reporting for cash collections, revenue attribution, and compensation calculations across multiple data sources.
- Develop and maintain internal business applications using Domo Pro Code Apps, Power Apps, Power Automate, and SharePoint to automate business workflows.

PROJECTS & LEADERSHIP EXPERIENCE

RVPark, *Class Project*, Software Engineering II, https://github.com/XaRodriguezWSU/RVPark | 2026
- Collaborated on a C# and ASP.NET MVC web application for RV park reservations, campsite management, and administrative reporting. Developed application models and date-filtered reservation reports.

AI and Technical Task Force, *Mountain Land Physical Therapy Partners*, Cottonwood Heights, UT | 2026
- Collaborate with representatives across departments to identify business needs, evaluate technology solutions, and coordinate projects from planning through implementation.
- Serve in both project planning and technical development roles, contributing to a clinical mentorship application and Python-based automation for organizing images and preparing documents.
